The survey officer shall be competent, however, to rescind such permission if he should find at any time that delay in the landholder's supply of either survey marks or labour has set back progress of operations.

Rules under clause 2 (g).

1. The total charges advanced under section 8 of the Act for any Government village or part of a Government village shall be apportioned on the lands surveyed in proportion to the area thereof as ascertained in the manner explained below.

(1) The area of fields for which the holders have supplied labour and survey marks shall be deducted from the total area dealt with.

(2) An acre of wet land shall (save in the deltaic tracts in Godavari, Kistna, Guntur and Tanjore districts and in the districts of Malabar and South Kanara where all classes of land are for this purpose treated alike) be considered as equivalent to an acre and a half of dry, waste or poramboke. All fields of over 50 acres in extent consisting of poramboke or assessed waste and all minor circuits whatever their extent shall be charged at one-fourth the average rate adopted for dry land.

(3) The elimination under item (1) and the commutation under item (2) supra give the conventional area in terms of dry land on which the total charges shall be levied. The rate per acre of dry, waste or poramboke, that for wet which is half as much again save in the areas above excepted and that for the large blocks of poramboke, assessed waste or minor circuit which is one-fourth of that for dry, are then determined. It is at these rates that the charges shall be recovered from all registered holders, Government being treated as the registered holder of unoccupied land.

2. The determination of the rates at which the charges have to be levied shall begin as soon as the survey of one or more villages has been completed

First month.—The charges incurred up to the end of the month shall be averaged over the area surveyed so far and the average rate shall be calculated in accordance with the procedure prescribed in rule 1. The demand against the villages the survey of which has been completed shall be arrived at by applying the average rate calculated as above to the area according to the latest revenue adangals after excluding therefrom the fields for which the holders have supplied stones and labour. The demand together with a list of the excluded fields shall be sent to the Revenue Department for collection. The remainder of the cost relating to the surveyed area of incomplete villages shall be carried forward for treatment in the succeeding month.

3 *Second month.*—The total of the amount left over in the preceding month and of the cost incurred in the month shall be averaged as in the first month over the total of the surveyed area left over in the preceding month and of the area surveyed in the month after deducting excluded fields. At the rates so arrived at the demand for the villages the survey of which has been completed shall be worked out and communicated to the Revenue Department as in rule 2, the balance of the surveyed area of incomplete villages and the cost being left over for treatment in the succeeding month.

The procedure shall be repeated until the survey of the tract is completed.

4. The Tahsildar shall then fix the demand in respect of each holding and forward the demand notice in duplicate to the village headman for collection.

5. The whole or a specified portion of the cost of survey of an estate or portion of an estate shall on application by the proprietor of the estate be apportioned as may be directed on the following principles by Government or by any officer or authority to whom the power has been delegated by it under section 20 (1) of the Act, among the holders of the lands or the persons interested in the boundaries which have been surveyed :—

(*a*) The cost per acre shall be calculated in accordance with the instructions laid down in rule 1 above for Government lands.

(*b*) The apportionment shall be made only in cases where the proprietor admits in writing that his tenants have occupancy rights.

Rules under clause 2 (h).

Processes issued under the Act shall ordinarily be served by the village establishment and no fees shall be charged for such service. The Director of Survey may, however, sanction the employment of a special establishment for the service of such notices; and in such event the following scale of fees shall be payable for process served by such special establishment, viz —

Nature of process.	Amount payable by survey officer in exercise of					
	Original jurisdiction.			Appellate jurisdiction.		
	Rs.	A.	P.	Rs.	A.	P.

(*a*) to a single defendant, respondent or witness ...	0	8	0	1	0	0
(*b*) to every additional defendant, respondent or witness residing in the same village, if the processes be applied for at the same time.	0	4	0	0	8	0

NOTE.—For processes applied for and ordered to be served as emergent the fee shall be 1½ times the ordinary fee.

2. Copies of orders passed under sections 9 (1), 10 (1) and 21 (1) of the Act shall be granted to applicants on payment of a charge which will be levied in the form of copy stamped papers at the rate of one sheet for every 175 words whether in English or in a vernacular. A sheet means a copy stamped paper bearing a stamp of the value of three annas or surcharged three annas If an applicant produces an unsurcharged copy stamped paper of the value of two annas the number of words to be written on such a copy stamped paper is limited to 117 instead of 175. No. 320.—Agreement made the 15th day of September 1924, between the Uttiramerur Co-operative Building Society, Vedapalayam, a society registered under the Co-operative Societies Act No. II of 1912, and carrying on business within the Uttiramerur Union (herein after called "the Society") of the one part and the Secretary of State for India in Council (hereinafter called "the Secretary of State") of the other part.

Whereas upon the application of the society, the Government of Madras (by their order in Memorandum No. 2049-III 22-4, Development, dated the 17th January 1923) have agreed to acquire, on behalf of the society under the provisions of the Land Acquisition Act, 1894, the pieces or parcels of land described and delineated in the schedule and plan hereto annexed and situated in the Vedapalayam village, as having been shown to the satisfaction of the said Government that the proposed

acquisition is needed for the construction of a work likely to prove useful to the public, namely, first the provision of building sites for persons in need of the same by reason of congestion and bad sanitation in the thickly populated village of Vedapuiayam, and secondly the taking of measures necessary to ensure the proper and timely erection of dwellings on the sites as aforesaid; and whereas the said Government has called upon the society under the provisions of section 41 of the said Act to enter into the agreement with the Secretary of State hereinafter contained. Now these presents witness that it is hereby agreed and declared as follows :—

1. The society shall pay to the Government of Madras before the said land is transferred to the society, the cost of the land as settled by the Collector or if reference is made to the court by the final court of appeal, and all costs of acquisition inclusive of all payments and allowances in respect thereof payable under the said Act, and all court costs and pleader's fees, etc. (incurred by Government in defending the reference if any made to the court as aforesaid and on appeal or appeal filed in connection therewith and all costs, pleader's fees payable or paid by Government to the claimant in the said matter), the Government shall not be bound to give possession of the land until all the said moneys have been paid and may withdraw from the acquisition and in case of withdrawal the society shall be liable to indemnify Government against all expenses incurred and damage sustained as the result of anything done by them in the matter of acquisition till the date of the withdrawal.

2 Upon such payment by the society, the Secretary of State shall execute and do all such acts, deeds, matters and things, as may be necessary or proper for effectually vesting the said land acquired in the society and giving the society an absolute title thereto

3. The terms upon which the said land shall be held by the society are the following :—

(i) The society shall parcel out the said land among its members so that each member who obtains a site shall possess a site not exceeding 0·15 acres ;

(ii) Each such site shall be raised two feet or be provided with building plinths of two feet in height before any building is constructed on it.

(iii) The society shall construct suitable houses for its members or direct the members of the society to construct houses for themselves, and such construction shall be complete within the two years of the date of the transfer of the land to the society.

(iv) The society shall pay to Government annually the appropriate assessment that may be imposed on the land from time to time

(v) In the event of the society being wound up the Secretary of State shall be entitled to resume the land thereby agreed to be acquired on repaying to the society the amount of the award as finally settled.

In the event of failure to carry out the terms specified above, that is to say (a) if within two years from the date of the transfer of the land to the society any portion thereof be not parcelled out to a member or members as provided herein before, or (b) if within two years from the said date any site so parcelled or provided with plinths as hereinbefore provided and built upon with a habitable house and necessary appurtenances thereto then such sites or portions of the land transferred to the society shall become the property of Government and shall be resumed and taken back by Government on repayment to the society of a sum which shall be the value of the extent of land so becoming the property of Government calculated at the rate per acre allowed in the present case of the said land by the Collector or by the final court of decision in the acquisition proceedings hereinbefore described.

In witness whereof the seal of the society hath hereunto been affixed and the indenture executed for and on behalf of the society by (1) C. W. Ponnuswami Mudaliyar and (2) V. Fort St. George, November 6, 1924 (*G.O. No.* 1252 *W.*).

The Superintending Engineer, Trichinopoly Circle, and the Collector of Madura enquire whether the procedure laid down in G.O. No. 1692 W., dated 1st November 1920, for revaluation of Government buildings and lands for purposes of municipal assessment applies to all periodical revisions in future.

2. In G.O. No. 2432, L. & M., dated 3rd September 1924, orders have been issued to the effect that G.O. No. 1692 W., dated 1st November 1920, need not be applied to residential buildings and lands attached thereto and that in the case of those buildings, the standard rent fixed by Government, under rule 45 (*b*) of the Fundamental Rules, for 12 months should be taken as the gross annual rental value for purposes of assessment of property tax under section 82 (2) of the Madras District Municipalities Act.

No. 1118.—It has been brought to the notice of the Government that two elementary school buildings of the Chicacole Municipal Council built with the aid of provincial grants have disintegrated prematurely within a period of ten years and that the cause of the disintegration was due to the bad selection of the site which is light alluvial soil and apparently made up of municipal rubbish.

2. To guard against the waste of public funds entailed by such faulty schemes of building construction all local boards and municipal councils are advised to select sites for the construction of buildings in consultation with the officers of the Educational or Medical Department as the case may be and to obtain the approval of the Public Works Department officers in their respective jurisdictions to the sites selected, whether the schemes are financed out of their own funds, provincial funds or both local and provincial funds.

NOTICE TO MADRAS CANDIDATES.

IV. Candidates who have applied to be examined at Madras are informed that they will have to sit for their examination at places—*vide* paragraph II *supra*.

No hall tickets will be issued (except in the case of Typewriting—Lower), but a copy of the nominal list will be posted on the notice board at the entrance to the several places of examination (*vide* paragraph II *supra*) on the 19th November, and candidates are requested to learn their register numbers from this list.

NOTICE REGARDING THE EXAMINATION IN TYPEWRITING.

Both at Madras and at the Mofussil.

V. Candidates coming up in typewriting must bring with them their own typewriters—the Remington, Remington Portable, New Model Remington No. 12, Yost, New Century, Smith Premier, Densmore, Empire, Underwood Underwood Portable, Oliver, Armstrong, Standard, Fulding, Stearns Visible, Sun Typewriter, Fox Visible, Sailor, Victor Typewriter—Model No. 3 and No. 16, Monarch,

* For Cotton-weaving, Needlework and Dress-making and Embroidery only.

Noiseless, Wood Stock Standard, Royal Standard No. 10, Rex Visible, Mollo, Mercedes, Demountable, Blto or L.C Smith & Bros. machine. The candidates will, if necessary, be examined *en batches*, but at least every *four* candidates for the Lower grade and at least every *two* candidates for the Higher grade must have one machine among them.

In the outstation.—Heads of the institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned *ten* days before the examination and furnish him with all necessary information as to the number of candidates and machines and the time at which each batch should attend on the day fixed for the examination.

At Madras.—Heads of institutions and private candidates should make similar arrangements with the Secretary to the Commissioner for Government Examinations on the 20th November between 11 a.m. and 3 p.m. at the Old College, Nungambakkam.

At Madras.—In the case of candidates for the Lower grade, tickets of admission specifying the particular batch (first or second and so forth) in which they elect to appear will be issued on that day. These tickets should be shown at the entrance. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only if spare seats are available in the hall, *i.e.*, after seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions and private candidates are particularly requested to call at the office on the 20th November and obtain tickets. No tickets can on any account be sent by post whether to heads of institutions or to private candidates.

Candidates for the Higher grade may appear for the first or second batch at their option and no tickets accordingly are issued for this grade.

At Madras.—Managers and instructors of institutions and other persons who wish to be allowed into the examination hall to inspect the machines and remedy any defects should call at the office on the 20th November and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

Candidates that have each a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the Lower, and with the second batch for the Higher, examinations.

Managers and instructors of institutions concerned will be allowed into the examination rooms *in the intervals between the examinations of the earlier batches* to inspect the machines and to remedy any defects.

If a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the manager or instructor, if he is waiting outside on the premises, and will permit such manager or instructor to enter the hall or room (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter; his action will be purely *ex gratia* the whole responsibility resting on the candidate and the manager or instructor.

A similar concession will be allowed in the case of a private candidate, if he has some one outside who is willing to inspect the machine and put it right, etc.

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and being put right.

Attention is drawn to the following rules :—

1. No candidate will be allowed to enter the examination room unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination room.

2. No candidate will be allowed to quit the examination room on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that half hour will not be admitted.

3. No candidate will be allowed to re-enter the examination room during the hours of examination after once quitting it, nor to leave the room without finally giving up his answer papers.

4. Any candidate detected in speaking to, or in any way communicating with, any other candidate will be at once removed from the room and the circumstance reported to the Commissioner.

5. Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examination or is suspected of having had recourse to malpractice of any kind is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, *if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results*, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.

6. *No candidate will, on any account, be allowed to take into the examination room ink, slates, books, ruled sheets, manuscripts or papers of any kind.* Any one detected in the violation of this rule or having recourse to any unfair practices will be removed from the room, and the occurrence reported to the Commissioner. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

7. Candidates whose names are not in the printed list furnished to the Superintendents must submit a written declaration through the Superintendents giving full particulars in regard to themselves, including their address, and furnish such evidence as may be possible of their having applied for admission to the examination at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

8. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

9. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examination.

10. A candidate having completed his paper will rise from his seat and remain standing until the Superintendent takes his answer papers. Any candidate wishing to ask any question of the Superintendent will pursue the same course, but will on no account leave his place.

11. Any answer papers, sent up without the candidate's name and number affixed will not be valued. The answer papers should be stitched or pinned together at the upper left-hand corner, and the whole folded in two, lengthwise (not crosswise into four). The place of examination and the name and number should be written out clearly by the candidates on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

12. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination room.

13. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All "spoilt copies, etc.," should be left on the desk where the candidate has been writing.

Read also Government Memorandum No. M 142-1, Finance (Marine), dated the 6th September 1924, enquiring whether clause 26 of the Trust's Scale of Rates is not now being enforced and whether any action was necessary on the suggestion of the Commissioner of Police to the effect that access to the wharf should be regulated by the issue of tickets, corresponding to platform tickets on Railways.
